

THE SMALL STAND

THE "SMALL STAND" WAS DESIGNED TO HOLD 2 AND 4 CYCLE ENGINES THAT HAVE BEAM MOUNTING. IT WILL HOLD LARGE ENGINES TO 2.0 CU. IN. YOU CAN ALSO RUN THE SMALL GASOLINE ENGINES, BUT I SUGGEST THE LARGE STAND AS IT HAS A BOX TO HOLD THE IGNITION MODULE AND BATTERY.

FEATURES:

BALTIC BIRCH PLYWOOD CONSTRUCTION WITH POLYURETHANE FINISH

ADJUSTABLE TANK POSITION AND HEIGHT

ADJUSTABLE THROTTLE CONTROL TENSION, HEIGHT, LOCATION ON RAIL

READY TO USE, INCLUDES MOUNTING HARDWARE. TANK NOT INCLUDED
